PROFILE

Operations and IT professional with 4+ years in safety-critical rail operations, from real-time train traffic control and programming in Trafikverket's operational traffic control system (TLS) to leading railway track-work projects. Background in IT support, Salesforce administration and AI-assisted automation, including Excel/VBA tools used daily by my team and self-built web projects. Used to working with distributed teams in a 24/7 environment with strict security routines. Fluent in English, comfortable working remotely and available after a two-month notice period.

CORE COMPETENCIES

- IT and operations support
- Process improvement and automation
- Incident handling and troubleshooting
- Project coordination
- AI-assisted development
- Clear written communication in English

WORK EXPERIENCE

May 2026 – Present | Malmö, Sweden

Chief Track Work Supervisor (Huvudtillsyningsman, HTSM) | **LD Järnväg och planering AB**

Overall responsibility for safety and planning of railway track-work projects on behalf of the infrastructure owner.

- Coordinate several teams across parallel projects and act as main contact with the client
- Planning of upcoming projects – scope, resources, logistics and timelines
- Risk assessment and safety planning under TTJ
- Built Excel/VBA tools with AI assistance, used daily by a team of 6 across 5 projects – saving roughly 2–4 work hours per day

---

September 2022 – May 2026 | Malmö, Sweden

Train Traffic Controller / TLS Programmer | **Trafikverket (Swedish Transport Administration)**

Real-time traffic control in Trafikverket's 24/7 traffic control centre.

- Operation and programming in TLS, the operational system for live train movements
- Real-time traffic control of trains, shunting and track possessions
- Incident and deviation handling, including escalation and coordination with emergency services
- Strict security routines for handling sensitive operational information

More information about my role at Trafikverket can be provided at interview

---

October 2020 – September 2022 | Malmö, Sweden

Customer Service & Invoicing Specialist (via Randstad) | **Postnord**

- Salesforce superuser – involved in developing and improving the Salesforce environment
- Import/export control in the Citrix NCM customs system
- Case and incident handling – invoice disputes, credit notes and payouts

---

June 2020 – September 2020 | Malmö, Sweden

IT Support & Customer Service | **Bredband2**

- Technical support and troubleshooting for broadband, routers, mobile broadband, telephony and antivirus
- IT advice to private customers by phone

September 2018 – September 2019 | Trelleborg, Sweden

Machine Operator | **Metso Minerals Sweden AB**

- Production within mineral processing technology – machine operation, risk assessment and quality control

PROJECTS

- **TokenWise AI** (tokenwise-ai.vercel.app) – website explaining AI to companies: tokens, costs versus savings and a problem-checker chat. Built with AI coding tools, deployed on Vercel
- **Rail Pulse** (in progress) – dashboard of railway disruptions built on Trafikverket open data
- **VoiceReader** – text-to-speech web app; planned and directed the build using Claude Code (Next.js, React, TypeScript, Prisma)

EDUCATION

2026 – Ongoing

Full-stack web development | **The Odin Project (self-study)**

- HTML, CSS, JavaScript, Git and full-stack fundamentals

2014 – 2018

IT – Media and Information | **Sundsgymnasiet, Vellinge**

- IT infrastructure and server knowledge, networking, basic programming

TECHNICAL SKILLS

- Excel – advanced, including VBA macros and automation
- AI tools for development (Claude Code, ChatGPT)
- Web development – JavaScript/TypeScript, React, Next.js, Git, Vercel (learning, project experience)
- Salesforce (superuser), SAP P45, Citrix NCM, Microsoft Office / Teams
- Networking and IT infrastructure basics; operational systems (TLS)

LANGUAGES

- English – Fluent (C2)
- Swedish – Native (C2)
- Danish, Norwegian, German – Basic (A1)

PERSONAL INTERESTS

Travelling (preferably somewhere with surfing or snowboarding), football, fitness, reading and film.
